

YEAR 8 REVISION BOOKLET

Dear Student

YOU WILL HAVE AN EXAM IN THESE SUBJECTS:

- English
- Maths
- Science
- Art
- Dance & Drama
- DT and Food Preparation/Nutrition
- Geography
- History
- Modern Foreign Languages
- Music
- Religion, Philosophy & Ethics

Use this booklet to help you plan out your revision during the study weeks.

It includes the following details:

- What topics will be covered in your exam. There will be no surprises!
- How long each exam will be and what different sections there will be in each exam.
- Some tips on approaches to revision in each subject.

REMEMBER : The main purpose behind the exams is to give you the experience of sitting exams and to give you the experience of planning your revision. This will help you later on when you are taking exams (such as GCSEs) that are more important.

GOOD LUCK!

2019

Ian Grant
Deputy Head

HOW TO USE THIS BOOKLET:

- Read this to help plan your revision.
- Have it ready for each lesson.
- Tick off each area as it is covered.
- Double tick when you feel that you understand this area.
- Highlight any areas that are causing you difficulty.
- Make certain that you read the booklet and have clear in your head what is involved in each exam.
- Share this document with someone at home – get them to help you revise!
- See your teacher if there is anything that you don't understand.

Below are study tips on “how to revise”. Use these and you will remember!

Study tip #1: Retrieval practice. Put away notes, on blank page do a "brain dump" write all you know about a topic on the page. When done, use notes to check for accuracy and add missing information. [#retrievalpractice](#) [#howtostudy](#)

1 RETRIEVAL PRACTICE

Retrieval practice means trying to remember material you have learned, so when you sit your test, it comes readily to mind. Like this:

- 1 Make a list of important info you need from a topic
- 2 Close the book and create a quiz for yourself
- 3 Try to retrieve everything you've committed to memory
- 4 Go back and check all your answers

Study tip #2: Questioning and elaboration. Ask questions to yourself whilst studying things you have learnt. Ask friends, teacher. Connect ideas, similarities and differences. Retrieval practice for a pass, elaboration for an A. [#elaboration](#) [#howtostudy](#)

2 QUESTIONING AND ELABORATION

Once you have learned a lot of material, what should you do with it?

Ask questions about it and make connections. Here are questions about this quote:

*Is this a dagger which I see before me,
The handle toward my hand?*

- 1 Why does Shakespeare use this imagery here?
- 2 What does this reveal about Macbeth at this point?
- 3 How does this connect to what we know of Macbeth?

Study tip #3: Concrete examples: Some ideas can be abstract and that makes them difficult to understand. Collect examples for abstract ideas from your teacher or from notes/books. Creating your own is best but check they are accurate. [#howtostudy](#) [#concreteexamples](#)

3 CONCRETE EXAMPLES

Concrete examples help concepts come alive – as in the transformation of lettuce depicting osmosis.

And in these questions used to find out exactly what an excellent essay looks like:

- 1 How has the essay been structured?
- 2 What particular phrases have been used?
- 3 What specific examples have been used as evidence?

Study tip #4: Spaced Practice. Plan to study early. 5 hours over 5 weeks is better than 5 hours at once. Look back at work from last week, month, term. Use tip #1 retrieval practice, tip #2 elaboration, tip #3 examples with your spaced practice. [#spacedpractice](#) [#howtostudy](#)

4 SPACED PRACTICE

Recognising that procrastination is part of our nature, helps us avoid it. Cutting up revision into smaller chunks and spacing it out over a period of time is the best strategy to adopt. For example, with 6 hours to prepare for a test in a week's time, here's how to space out the revision.

Study tip #5: Interleaving. Switch between ideas during a study session, don't study one idea for too long but long enough to learn. Switch topics and subjects. Go back over ideas in a different order. Feels really hard but hard work helps learning. [#interleaving](#) [#howtostudy](#)

5 INTERLEAVING

As with spaced practice, leaving gaps between studying is very effective. When studying multiple topics, mixing up the material you study adds to its impact. Such a mix is called interleaving.
